

The Data Triangle ©

Staff, Parent and Student Metrics

The Data Triangle is an SED approved instrument for use in the DTSDE

Outstanding Features:

- Precise alignment to the Tenets and SOPs of the DTSDE
- Aligned benchmarks so that comparisons may be made across stakeholder groups
- Provides a comprehensive basis for discussion and collaboration
- Creates a data base for school/district-wide planning
- Performance Benchmarks are easily translated to SMART goals in the DCIP and SCEPs
- Provides a model for the district/school to accurately monitor progress, longitudinally
- Surveys all students and staff with a 95% response rate required, not random sampling
- Includes a Family Engagement Survey component which creates a comprehensive data base

Amazing, cost-effective pricing!

More on Our Assessments:

PLC Associates, Inc., a consultancy specializing in services to schools for over twenty-five years, has designed these assessments. They are based upon field *experience, research, and best practices*. The Performance Benchmarks are key drivers for school transformation and turn-around!

- **The School Performance Scan** measures the internal systems and practices of the school as described by the DTSDE 2.0 Rubric. Data is provided by school and in an aggregate format, by district.
- **The Family Engagement Survey** accurately assesses the perceptions and insights of families. This is excellent for creating goals and strategies for Tenets 5 and 6.
- **The Student Voice** provides an accurate indicator of student views and their insights on school structure, instruction, and teaching/learning processes. Let's listen to our students!
-

The Data Triangle is a powerful diagnostic, research-based tool that provides the critical database needed to plan strategies, measure success, and sustain high performance.

Key Deliverables...We make it easy!

- All setup/delivery of the entire assessment
- Comprehensive, detailed, color-coded Data Report
